Dr. Dieter Struller experiences in detail:

Dr. Dieter Struller, German, achieved his degree in Medicine in 1991 at the North-Rhine Westphalian University of Aachen, Germany and was assigned to the Department of Urology in the Teaching Hospital (North-Rhine-Westphalian University) in Aachen, Germany from July 1991 to June 1993. There he acquired his training in urology and improved his knowledge of different aspects in diagnose and treatment of male infertility. On laboratory fields he was educated in all professional procedures for semen analyses.

In July 1993 Dr. Dieter joined the Department of Gynaecology and Obstetrics in the Teaching Hospital of the North-Rhine-Westphalian University of Aachen, Germany. In this phase of his qualification he did hundreds of open and laparoscopic surgeries on different types of clinical pictures in oncology, gynaecology and fertility cases. In Obstetrics Dr. Dieter accompanied nearly thousand spontaneous or surgical parturitions. He was responsible for the pre-assessments and selection of surgical indication and techniques. During June 1998 he got his degree as a Consultant in Obstetrics and Gynaecology by the German Medical Board.

In July 1998 Dr. Dieter joined the department of Gynaecological Endocrinology and Reproductive Medicine at the University Hospital of the North-Rhine-Westphalian University (RWTH) in Aachen, Germany and later got a degree as a Consultant in Reproductive Medicine in June 2000 from the German Medical Board. During this period at the University Hospital (RWTH) in Aachen, Germany he managed and treated hundreds of infertile couples offering cycles of IUI/IVF/ICSI/PESA/ TESA accordingly.

Further more Dr. Dieter is experienced in pre-therapeutic medical treatment of endocrine cases of illness and endometriosis. He was responsible for establishing diagnosis and developed suggestions for treatment of infertile couples. In seeking for causes of infertility he did further more than hundred of open and hysteroscopic/laparoscopic surgeries on patients with endometriosis, abdominal or intrauterine adhesions or any other infertility related medical problems.

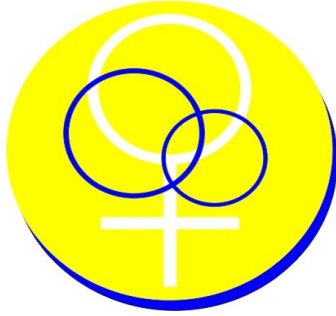

Dr. Dieter underwent an intensive education in all modern techniques used in the IVF- and Andrology- laboratory.

In his period of qualification at the University Hospital of the RWTH Aachen, Germany he was involved in sampling and processing data of clinical patients for research of the department of Gynaecological Endocrinology and Reproductive Medicine.

In his effort to help infertile couples he was intensively educated and trained in psychological management of infertile patients.

In July 2000 Dr. Dieter founded and is managing since then the Bedburg Gynaecology and Fertility Hospital near Dusseldorf. Dr. Dieter's Hospital has acquired all the Gynaecology and Fertility licenses needed by the German Medical Board for private and governmental hospitals. Since beginning of 2007 a second infertility specialist joined the team. Dr. Dieter is taking care about a several hundreds of patients and couples and does an average of 250 egg collections and embryo transfers per year, more than hundred IUI (intrauterine insemination) and as well great number of transfers with frozen and thawed pronuclear cells developed to an embryo per year.

Dr. Dieter's Gynaecology and Fertility Hospital is used to all most modern techniques of reproductive medicine and up to date about all medical and biological knowledge. All medical and non medical staff is continuously trained according to scientific standards.

In his position as managing director of the hospital Dr. Dieter is also responsible for implementing the quality management system which is certificated by the North-Rhine-Westphalian Medical Board.

The Bedburg Gynaecology and Fertility Hospital is one of the leading hospitals for fertility in the region with out standing empathy and personal attention to the patients. The Hospital is well known for it's very warm-hearted and personal care and specialised competence of it's team.

The pregnancy success rate of his unit is above the average of the German IVF Register.

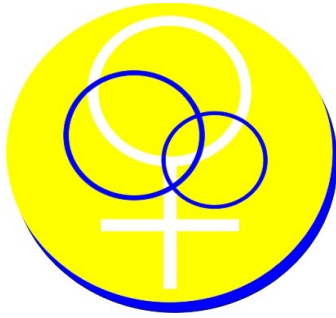

In the phase of his attends at the University Hospital of the RWTH Aachen and during the last years in his hospital Dr. Dieter has got a huge experience dealing with multi-national patients from both the Middle East and Europe.

He is a Member of the following European and International Societies

- 1 DGRM (German Society of Reproductive Medicine)
- 2 ESHRE (European Society of Human Reproduction and Embryology)
- 3 BVF (Professional Society of Gynaecologists)
- 4 DVR (German union of Reproductive Medicine)
- 5 MEFS (Middle East Fertility Society)
- 6 BZR (German Society of IVF Centers)
